

# asbestos refurbishment + demolition checklist

| Pre-Refurbishment/Demolition Survey (building owner) <a href="#">safety checklist</a> |     |                    |
|---|-----|--------------------|
|   | yes | action to be taken |
| A refurbishment/demolition survey has been undertaken                                 |     |                    |
| The asbestos register has been updated or developed                                   |     |                    |
| A copy of the register has been given to the contractor                               |     |                    |

| Licensed asbestos removal (Person who commissions work) <a href="#">safety checklist</a>        |     |                    |
|---|-----|--------------------|
|   | yes | action to be taken |
| Independent licensed asbestos assessor engaged  |     |                    |
| Correct licensed asbestos removalist engaged for the type of asbestos being removed             |     |                    |
| Licence holders hold a current licence (checking for insurance is recommended)                  |     |                    |
| A copy of the asbestos removal control plan (ARCP) has been received                            |     |                    |
| The asbestos removal work has been notified to SafeWork SA (typically in the ARCP)              |     |                    |
| The independent licensed asbestos assessor has sighted the ARCP                                 |     |                    |
| Access to the asbestos removal area is limited to persons associated with the removal work only |     |                    |

| Licensed asbestos removal work (Tennant) <a href="#">safety checklist</a> |     |                    |
|---|-----|--------------------|
|   | yes | action to be taken |
| Informed the person who commissioned the work                             |     |                    |
| Informed your workers and other persons                                   |     |                    |
| Informed businesses in the immediate vicinity                             |     |                    |
| Informed anyone occupying premises in the immediate vicinity              |     |                    |
| Access to the asbestos removal area is limited to                         |     |                    |

|   |  |  |
|---|--|--|
| persons associated with the removal work only |  |  |
|---|--|--|

| Completion of asbestos removal work <a href="#">safety checklist</a>                         |     |                    |
|--|-----|--------------------|
|  | yes | action to be taken |
| A clearance inspection has been completed by the licensed asbestos assessor                  |     |                    |
| A clearance certificate has been issued prior to reoccupation.                               |     |                    |
